PROJECTS

Expense Tracker   Current -2025
Group Expense Tracker Web App
Built a responsive web application using HTML, CSS, and JavaScript to track daily group expenses efficiently. The app includes features like real-time balance calculation, transaction history, and balance tracking on a daily, weekly, and monthly basis using a virtual wallet system. Users can create or join groups using a Group ID and email, manage personal wallets, and interact with an integrated chatbot for assistance and updates.

Education Hub   April 2024 - Feb 2025

Designed a full-stack web platform using Node.js, Express, MongoDB, HTML, CSS, and JavaScript to help students easily access university syllabi, daily blogs, educational PDFs, and reference books. The platform features user authentication, real-time chat functionality, and a forum system to enable discussions and mentorship opportunities among students and educators.
